$$\frac{144}{77} = 99$$

A diagram of a cylinder with a top flap. The top flap is shown as a curved surface extending from the top edge of the cylinder. The cylinder has a horizontal line across its middle, and small rectangular feet at the bottom.

$$\frac{99}{42} = 99$$

A diagram of a cylinder with a dashed top flap. The top flap is shown as a dashed line extending from the top edge of the cylinder. The cylinder has a horizontal line across its middle, and small rectangular feet at the bottom.

$$\frac{110}{65} = 65$$

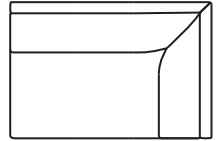

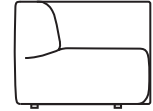

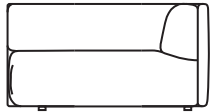

A diagram of a cylinder with a top flap. The top flap is shown as a curved surface extending from the top edge of the cylinder. The cylinder has a horizontal line across its middle, and small rectangular feet at the bottom.
